

**Quadrum Saca consolidates its reputation as the “*world’s most important marketplace*” for the mouldings, frames, graphics and relative technology industries**

Between Thursday 14<sup>th</sup> and Sunday 17<sup>th</sup> February 2008, some **7,381** trade professionals (of whom **2,655** were from abroad) entered the Bologna Exhibition Centre to visit the stands of the **260 exhibiting** companies (**125 foreign businesses from 25 different countries**) covering **31,000 square metres of exhibition space**.

The three theme shows, **Frames, Graphics and Technologies and accessories** attracted gallery owners, artists, dealers, designers, manufacturers and frame-makers from all over the world, who came to admire the latest trends in *mouldings, accessories, glues, varnishes, picture customisation products, mirrors, fine arts supplies, brushes, canvasses, easels, découpage and crafts supplies, posters, prints, reproductions and machinery for manufacturing and packaging mouldings, frames and passepartouts*.

A resounding success was enjoyed by the exhibition titled **Wall in Progress**, which occupied over than 500 sqm in hall 30. The exhibit aims to draw attention to the quality workmanship of frames and mirrors and the infinite ways in which they can be used in interior design and architecture. Frames and mirrors fashioned in numerous different styles will be the star attraction of this large exhibit, intended to mark the re-launching of the mirror industry toward new expressive, communicational and market possibilities and assert its centrality to interior design and architecture. A gallery of sensations, a display abounding in surprises and ideas for decorating interiors with mirrors and frames.

*The next edition of Quadrum Saca will be held at Bologna Exhibition District from **19<sup>th</sup> to 22<sup>nd</sup> February 2009**.*
